Military Towns are definitely not all soldiers and sailors. Family householders aged 15 to 34 are typical, although the cluster has a super high index of population in military barracks. Make no mistake, these neighborhoods live and breath the military, but kids in school and an array of support services and industries round out today's Military Towns. Discretionary spending is prevalent in this youthful population because many basic needs are essentially met by the military. Average household income is \$40,500.
